The Rev'd. Paddy Doran,
Interim Minister.

Friday, June 1, 2007

Humane Wildlife Control Inc.

Hamilton/Burlington, Ontario

Attention: Brandon Crawford:

Mr. Crawford:

On behalf of our parish I would like to take this opportunity to extend our sincere gratitude to yourself and your staff for their recent work, which was done at our parish.

Brandon your personal efforts to fully explain all the details of the work that would be done to remove our extensive squirrel dilemma made it very easy to convey the information to the members of the Parish Council for approval. There was no element of surprise.

The efficient work completed by your staff (Jason and Moe) was remarkable. They worked rather quickly with attention to detail and other than the barriers and vents that were installed there was no indication they had been there.

We look forward to contacting you again in the near future to complete the next steps to remove the contaminants and re-insulate.

Yours truly,

Valerie Slote O.N.

Deputy Warden
