Humane Wildlife Control Inc.
297 Brucedale Avenue East
Hamilton, ON L9A 1R2

Dear Corey:

I want to thank for your efforts in resolving our bird problems at our parking garage and loading dock in St. Catharines. The birds nesting in these areas were causing a serious health and safety problem for our employees and the public using the garage. The cleaning of bird feces from the garage was a continuous problem.

I was please with the way in which you handled the removal of chicks from the nests, to installation of netting at the loading dock and the installation of spikes strips along the sprinkler lines. It showed that there are humane solutions to these kinds of problems.

Thanks again for your cooperation and prompt service. I will certainly recommend you to other organizations or municipalities that need to deal with similar wildlife problems.

Yours truly,

A handwritten signature in black ink, appearing to read "D. J. Birchnall".
